POOL REPAIRS

UPDATE

Our Valued Members:

Even though every effort was made to have the Swimming Pool facilities reopen at the end of December 2017, unexpected issues have now extended the reopening to late February 2018.

Although we have now solved the previous concerns of the waterproofing, tests indicated leaks from the pool. These leaks are now repaired and an additional step to fiberglass the entire inner pool structure is presently being performed.

Your continued patience is greatly appreciated as we strive to ensure the pool is properly repaired for your uninterrupted enjoyment in the future.

Board of Directors and Management.
